

GRID OPEN DAY

Friday, April 28, 2006

organized in the context of the
1st BalticGrid All-Hands Meeting

BalticGrid
Consortium

Tutorial

Venue: **Vilnius University MIF**

Registration for tutorial – see contact information below

Mirosław Kupczyk, Poznan Supercomputing and Networking Center, Poland

08:00–10:30 EGEE gLite – designed for new and prospective users of EGEE infrastructure who want to get familiar with Grid Computing. It covers introduction to basic grid concepts, grid middleware components and enables end-users gaining experience from interacting with the Grid.

10:30–10:45 Coffee Break

10:45–11:30 CrossGrid Migrating Desktop – an advanced graphical user interface to the grid resources and set of tools. On-line work with the remote resources, jobs, monitoring and data will be performed.

12:00–12:45 Lunch (*Academy of Science Palace*)
